That you cannot see how absurd “the wrong people were voting Labour” is with enough of the British public so that the forward march of Labour and a much through ideas and organisation: 1997 could have started that process. but that it is the right place for a reforming social democratic party to be,
Social democracy without social democrats? Labour has suffered another bad set of election results. But the failure of Labour is not the fault of the Corbynites or the Blairites. Social democracy is in crisis the world over: obliterated in Greece, failing in government in France and in retreat almost everywhere else. In 1979 the Marxist historian Eric Hobsbawm wrote his famous The Forward March of Labour Halted. Some wrongly believed Hobsbawm’s argument was that the march was halted that year, not least because, coincidently, it saw the arrival of Mrs Thatcher into both office and power. But what Hobsbawm identified was that the working class basis of Labour, long presumed to be the growing and one-day universal class, had in fact started to shrink as early as 1945.
