A.
Helping second language learners master academic content can be challenging. Scaffolding reading/writing lessons emphasizing active student involvement provides the setting for success in this area. Theme: Great Inventions. English language learners need to have an established purpose for reading something so they can evaluate whether they are successful readers. The purpose of during-reading strategies revolves around the teacher's modeling of questioning techniques in order to develop the self-questioning ability of students. For example, the purpose for reading the selection "On or Under the Water," which was established during the pre-reading phase, was to find out what inventions promoted the development of different types of boats throughout history. (1993). Whole Language: How Does It Support Second Language Learners? [Washington, D.C.]: Distributed by ERIC Clearinghouse, https://eric.ed.gov/?id=ED360875. MLA Citation: Seven false but common assumptions about bilingual learners are examined, and whole language principles offering alternatives to those assumptions are presented. The seven assumptions include the following: (1) learning proceeds from part to whole; (2) classes should be teacher-centered; (3) lessons should serve students' future needs; (4) learning occurs as individuals practice skills and form habits; (5) learning oral language precedes learning to read and write; (6) bilingual learners have limited potential; and (7) learning should take place in English to facilitate assimilation.
