Boxing’s greatest trainer reveals all

In My View from the Corner, Dundee delivers a candid, behind-the-scenes look at his involvement in some of boxing’s most controversial and historic moments.

Pulling no punches and telling it like it really was, Dundee breaks decades of silence to reveal how he had to talk Ali into not quitting during his first fight with champion Sonny Liston; the truth about the “phantom punch” that KO’d Liston in their rematch; what he did and did not do to assure an Ali victory against George Foreman during their “Rumble in the Jungle” in Zaire; how Howard Cosell filed a false report about the Ray Leonard-Roberto Duran fight that will not die to this day; the mob’s influence on boxing; his true feelings on Ali’s conversion to Islam; and what it was like to train Russell Crowe for his role in Cinderella Man.

• Foreword by Muhammad Ali, who remains one of the most popular athletes of all time
• New afterword for the paperback edition from fan favorite and former heavyweight champion George Foreman
• Coauthor and fellow Boxing Hall of Famer Bert Sugar is well known as a sportswriter and TV commentator
• World-famous sports artist LeRoy Neiman has contributed original artwork for the cover

Angelo Dundee (Miami, FL) was inducted into the International Boxing Hall of Fame in 1994.

Bert Randolph Sugar (Chappaqua, NY) is the former editor of Ring Magazine and Boxing Illustrated and publisher of Fight Game magazine.

PERFECT PHRASES FOR SPORTS COACHES
Ralph Pim

The phrases coaches need to turn players into winners

Whether it’s the first day of practice or the final moments before a game, regardless of the sport, Perfect Phrases for Sports Coaches provides coaches with phrases that effectively communicate key ideas to their teams. Organized by situation, this strategic communication tool covers the experiences that are common to all coaches: motivation, discipline, preseason expectations, skill development, handling pressure, as well as dealing with parents, administrators, and officials.

With this handy guide, coaches can grab their team’s attention and successfully convey key directives on the field and in the locker room—without having to rely on tired old clichés. These are the phrases that do more than motivate—they bring victory.

• Ralph Pim is the author of three coaching titles
• Perfect for amateurs, full-time educators, and coaches dealing with both experienced and developing teams

Ralph Pim (Pomona, NY) is the division chief for competitive sports in the Department of Physical Education at the United States Military Academy at West Point. He was a collegiate coach for over 25 years and is the author of three books: Own the Zone, Coaching Team Basketball, and Winning Basketball.

FIBERGLASS BOAT REPAIRS ILLUSTRATED
Cosmetic and Structural Repairs for Sail- and Powerboat Hulls and Decks
Roger Marshall

Step-by-step color photo guidance for repairing and renewing fiberglass boats

Few boat owners have the experience to work with fiberglass, meaning repairs must be done by high-cost professionals or left undone. This entry-level guide uses full-color, step-by-step photo sequences and line drawings to present the basics in easily digested form. Boat owners will learn how to:

• Save money and time doing their own fiberglass repairs
• Improve the value, appearance, and safety of their boats
• Work with materials such as polyester, epoxy, fiberglass, carbon fiber, and core materials
• Fix annoying leaks; repair cracks; restore gelcoat; fabricate new components

Roger Marshall (Jamestown, RI) is an accomplished yacht designer, competitive sailor, and author of 12 yachting books. After designing for the renowned firm of Sparkman & Stephens, he established his own design company, where he has designed sailboats and powerboats from 15 to 65 feet. Project manager in 1987 for the Courageous America’s Cup team, he has written some 600 articles for boating magazines worldwide and is chair of the publications committee for the Society of Naval Architects and Marine Engineers.

A soup-to-nuts introduction to small, economical sailing craft

Trailer sailers—the smallest, most economical sailboats with sleeping accommodations—are a popular platform for learning the basics of sailing and are often considered to be the entry level to cruising under sail. Author Brian Gilbert shows how trailer sailers can be the ideal craft for a lifetime of enjoyment, including serious, long-distance cruising. This book covers all the bases, including how to inspect, buy, and equip a boat; how to trailer, sail, navigate, and cruise in small boats; how to use communications and navigation equipment; and more.

• A buyer’s guide provides specifications and images of all new trailer sailers on the market, and many popular used models
• Emphasis on simple solutions will save the reader thousands of dollars

Brian Gilbert (Chattanooga, TN) is a lifelong sailor who lived aboard a Catalina 27 for four years. His total restoration of a basket-case trailer sailer is documented in his book Fix It and Sail, and he is a frequent contributor of how-to articles for magazines such as Good Old Boat, Small Craft Advisor, and DIY Boatowner.

Restore that “showboat” look to tired gelcoat, canvas, brightwork, upholstery, metalwork, and more

Boat cleaning isn’t as simple as taking a can of kitchen cleanser and scrubbing away, and improper procedures can cause damage to the boat or the environment. This is the only stem-to-stern guide to all aspects of boat cleaning and detailing. The book recommends both generic and brand-name cleaning and maintenance materials to help boaters make the right selections. Lots of before-and-after photos show boaters how to:

• Keep their boats looking great and protect market value
• Achieve maximum results with minimum work and environmentally safe methods.
• Use tables and checklists to keep work organized and efficient

Natalie Sears (Bellevue, WA) founded Deckhand Detailing just after completing high school in 1990. After a several-year hiatus to earn a business degree at the University of Washington and work for Microsoft as a marketing manager, she re-established Deckhand Detailing in 2002 and achieved immediate success once again, hiring staff and contracting her services to boatyards and marinas as well as boat owners and professional yacht captains. She writes a popular monthly column on boat cleaning for Norwesting, a Pacific Northwest boating magazine.

Work-around solutions and emergency repairs that will get your boat home when all else fails

Practical Boat Mechanics belongs onboard every boat that has a gasoline, diesel, inboard, or outboard engine. This practical collection of fast fixes enables you to repair failed machinery with basic tools under adverse conditions. Designed and written for non-mechanics, it also presents do-it-yourself maintenance procedures and schedules that will prevent most problems from occurring.

• Troubleshooting charts lead the reader graphically to the mechanical problems that correspond to the symptoms being experienced. These charts are cross-referenced to the pages where appropriate solutions can be found.

• The balance of the troubleshooting information is organized around the five senses (what you can see, hear, smell, feel, taste), thus furthering its appeal to the non-mechanically inclined.

• Work-around fixes get you out of any mechanical jam using ordinary tools and materials found on most boats. These include how to get fuel to your engine by gravity when the fuel pump breaks; how to replace a head gasket with a cheerios box; and how to replace a fan belt with a rope.

Ben L. Evridge (Port Angeles, WA) spent 20 years maintaining the 1,200 fishing vessels of Kodiak, Alaska, keeping them running in one of the world’s most challenging marine environments. He is a regular contributor to National Fisherman.
The comprehensive reference for every racing sailor

Paul Elvstrom Explains the Racing Rules of Sailing has accompanied sailors to regattas since 1965. This new edition of the book—known to all simply as “Elvstrom” and famous for its plastic boats and wind arrows—incorporates the complete text of the International Sailing Federation’s (ISAF) 2008 rules changes. It features color-coded explanations and interpretations of the rules with the help of two-color bird’s-eye-view drawings. It also offers a full-color chart of race signals, a graphic quick-reference locator for the rules, a summary of recent rules changes, and procedural notes for filing a protest.

• Since 1965, the most established and widely recognized rules-interpretation book on the market
• Instantly recognizable for its heavy vinyl jacket containing plastic sailboats and wind arrows for protest hearings

Soren Krause is a leading authority on sailing rules, a frequent judge on international regatta committees, and a member of the ISAF rule-making authority.
In 1775 General George Washington secretly armed a handful of small ships and sent them to sea against the world’s mightiest navy

From the author of the critically acclaimed Benedict Arnold’s Navy, here is the story of how America’s first commander-in-chief—whose previous military experience had been entirely on land—nursed the fledgling American Revolution through a season of stalemate by sending troops to sea. Mining previously overlooked sources, James L. Nelson’s swiftly moving narrative shows that George Washington deliberately withheld knowledge of his tiny navy from the Continental Congress for more than two critical months, and that he did so precisely because he knew Congress would not approve.

• Details an important but rarely mentioned event in American history
• With thorough research and literary grace, this book shows how Washington’s singular act of independence helped keep the Revolution alive in 1775

James L. Nelson is the author of Benedict Arnold’s Navy, as well as several novels that take place during the age of the sailing navies. His novel Glory in the Name won the American Library Association’s W.Y. Boyd Literary Awards for Best Military Fiction.
