High and Mighty: SUV's - The World's Most Dangerous Vehicles and How They Got That Way, New York: Public Affairs, 2002. In High and Mighty, Keith Bradsher, the longtime Detroit bureau chief of The New York Times, discusses the dangers that SUVs pose to their drivers and passengers, as well other drivers and pedestrians who must share the road with them. He examines the vehicles' history, explaining how the automobile industry lobbied Congress to classify them not as passenger cars but as light trucks, which are subject to less stringent regulatio

How did SUVs take over our roads despite high-polluting engines, poor gas mileage, worse braking than cars, worse safety than cars, less comfort, rollover problems, high danger to drivers who can't see past them, and engineering shortcuts?
