Cookbooks that are being discussed must be tied to a commercially-available book that someone can easily (within reason) purchase and hold in their hands. This means books available through Amazon, Barnes & Noble, Walmart, Waterstones, etc. E-Books cannot be included. The only exception to this rule is vintage books, which are not widely available for obvious reasons. Runner’s World Cookbook. Regular Price: $26.99. Special Price: $15.00. Add to Cart. Add to Compare. Instant Flat Belly: Instant Pot®. $24.95. Betty Crocker Ultimate Bisquick Cookbook. $31.95. Add to Cart. Add to Compare. Church Potluck Cookbook. $31.95. Add to Cart. This cookbook delivers on salads and dressings! It also delivers on side dishes like Maque Choux, Creamed Corn, Fresh Corn Casserole and countless recipes for fried okra, collard greens, fried cabbage, and squash casserole. There are even recipes for Cajun Dirty Rice and yellow rice, bacon and egg fried rice and many pasta recipes. The cookbook is small enough that it won’t take up a lot of space on your cookbook shelf but the recipes will definitely add a lot of color and flavor to your dinner table.

That allows inspection of Chef server from console. Inspecting current cookbooks in chef server and all single files in it. After developing the new version of chef cookbook and uploading it I was very eager to know if all uploaded correctly. In the second case I really wanted to know what source a particular recipe on the chef server has.
