He deals first with Baudrillard’s early writings, notably *The System of Objects* and *The Consumer Society*, which form the original matrix of his thought. The remainder of the book is organized thematically, analyzing Baudrillard’s early development of a new-Marxian. Let me begin this review by stating that I will not summarize the content of this excellent work, but I feel very strongly that it is important to give a laudatory review to a book such as this because it is so well written and useful. Dr. Kellner has written a very clear and cogent analysis of Baudrillard up to the point when this book was released. Jean Baudrillard. Read more. Antonio Gramsci: Beyond Marxism and Postmodernism.
