Book review. Almost Heaven: The Story of Women in Space, B.H. Kevles. MIT Press, Cambridge, MA (2006). 280pp., $10.95, ISBN: 0-262-61213-5. When NASA astronaut Sally Ride, the first American woman to fly in space, spoke to the National Press Club in Washington (where this reviewer was present) shortly after her historic flight, she acknowledged a debt to the women’s movement for helping her to get to where she was that day. In Almost Heaven: The Story of Women in Space, Kevles, a lecturer in the Department of History at Yale University, focuses solely on women who have flown in space.
