Office Hours: Students can request to set up a mutually agreeable time

Textbook:
Title: Strategic Management, 4th Edition
Authors: Frank T. Rothaermel
Description: paperback
Publication Date: 2019
Publisher: McGraw Hill Education

Course Description and Learning Objectives:
This course is designed to provide a fundamental exploration of organizations in their environments and provide an introduction to the strategic management process with a focus on the following:
- Strategic Planning and Analysis
- Evaluating the Competitive Landscape
- Establishing Strategic Direction and Leadership
- Formulating Business and Corporate Strategy
- Strategy Implementation and Control

The course learning objectives include:
- Examining the key elements of the strategic management process (planning, analyzing, leading, formulating, implementing and controlling)
- Identifying the critical elements of an organization’s external environment
- Conducting an environmental analysis in which an organization operates
- Conducting a company profile analysis to identify organizational strengths, weaknesses, opportunities and threats (SWOT)
- Identifying strategies being employed by an organization and the influencing factors
- Discussing the importance of leadership, culture, structure, and alignment in strategy implementation
**Course Website:**
All students officially registered for the course can access the course BlackBoard (BB) website. Your BB User Name is your UM email alias (you can find your UM email alias on MyUM at [www.miami.edu/myum](http://www.miami.edu/myum)), your initial password is your birth date. The BB site includes a course syllabus, class announcements, assignments, PowerPoint slides, and other relevant course information.

**ASSIGNMENTS AND EVALUATION**

1. **Assignment Policy:** Reading assignments and class discussions are all important. Students are accountable for all material contained in assigned readings. Lectures will not necessarily restate what you have already read in the text; they are designed to stimulate creative thinking as it relates to the theme of the course as a whole.

2. **Class Preparation and Participation:** Students are expected to actively participate and discuss matters scheduled for consideration in class. Active participation in class discussions is crucial to the learning process. It is each student’s responsibility to ensure that he or she is making regular contributions to the class.

   In the first class students will self-select into teams and will be assigned topics related to various organizations (case studies) for class presentations. Team projects involving analysis, designing recommendation, written materials and presentations to the entire class will require individual and team efforts. Each team will be assigned specific topics for presentation and will have a set time to present. The final presentation will be presented orally and submitted in writing to the instructor (further instructions on the final project will be provided by in the instructor during class). Students will be graded on individual efforts, team work and tests.

3. **Experiential Learning:** This course incorporates experiential learning in the following way: Discussion in class, case studies, role-playing, small group class exercises, presentations and assignments that have applicability.
Grading Criteria:

<table>
<thead>
<tr>
<th>Item</th>
<th>Percentage</th>

</table>

Note: Please see Course Schedule below for relevant dates and descriptions

Final Course Grades:

Final course grades will *generally* be determined according to the following scale:

- **A+** 97 – 100
- **A** 93 – 96
- **A-** 90 – 92
- **B+** 87 – 89
- **B** 83 – 86
- **B-** 80 – 82
- **C+** 77 – 79
- **C** 73 – 76
- **C-** 70 – 72
- **D+** 67 – 69
- **D** 63 – 66
- **D-** 60 – 62
- **F** 59 and below

**Final Team Presentations**

**Final Team Presentations (Worth 25% of your Grade)**

*Final student team oral & written presentations on Strategic Management including Environmental Analysis; Organizational Analysis and a Strategic Plan*

---

**Important Course Policies**

- **Academic Integrity**: Academic dishonesty in any form is not tolerated. This policy is required to encourage consistent ethical behavior among students, and to foster a climate of fair competition. Personal integrity is a quality that is expected and respected at the University of Miami. Consequently, the Undergraduate Student Honor Code is in force at all times. Students are responsible for reading, understanding, and upholding the Honor Code (available through Dean of Students).

- **Attendance**: Your presence in class is essential to your ability to understand and apply the material covered in this course. Treat this class as you would any other professional obligation. By accepting a job you are making an implicit commitment to attend work regularly. By registering for this class, you make a similar commitment. Note that you will not be able to do well in this course without attending class regularly. Please note, I do require attendance, and I take roll at the very beginning of the class period. If you arrive late, it will be noted. If you arrive late regularly, every two late arrivals will be equivalent to one missed class. If you do miss class, it is your responsibility to contact classmates (not me) to obtain any materials/information from the missed class session(s).

- **Cell Phones**: Before you enter the classroom, please turn off and put away your cell phone (and anything else that may ring/beep). Laptops, smartphones, PDAs, and other electronic devices (such as recording equipment) may not be used during class without specific approval from the instructor.

- **Dropping the Course**: The policy for withdrawing from a course is dictated by the University. Any student who has not dropped by the official drop date will receive a grade for the course. If you wish to withdraw from the course, you must officially drop the course; if you just stop attending the class, you will receive a failing grade.
• **Incomplete Grades:** The Incomplete (I) grade will be recorded only when a student is unable to complete the course for a verifiable non-academic reason (such as accident/illness requiring hospital confinement). An Incomplete grade will not be assigned when a student is not in passing status, or when a student wishes to repeat the course. Both the professor and the Department Chair must approve all Incomplete grades in advance.

• **Extra Credit:** The University of Miami has a strict policy prohibiting extra credit assignments offered to individual students. If extra credit assignments are made available to one student, they must be made available to all students in a class, and all students so informed. Consequently, there will be no extra credit assignments in this course.

• **Accessibility Resources:** Reasonable accommodations will be provided through Accessibility Resources (AR), or by the instructor, for students who have a documented disability and are registered with AR. Accommodations will not be made for students who are not registered or who do not present the required letter. The accommodations letter must be presented to the instructor at the beginning of the semester, and a minimum of two weeks prior to the desired use of the accommodation. The instructor will coordinate with AR to determine the best way to accommodate the student for the course. Students should not assume that they will be accommodated in exactly the same manner for every course. It is the responsibility of the student to contact the instructor to request the details of all accommodations. Students may speak with the instructor and/or contact AR at 305/284-2374 for more information regarding classroom accommodations.

**Special Note:** This syllabus represents a class plan. The professor may make changes in this plan as the semester progresses. Typically, changes will be based on such factors as student capability, student interests, student performance, and any breaking business occurrences that warrant our immediate attention.
Strategic management is a continuous process of strategic analysis, strategy creation, implementation and monitoring, used by organizations with the purpose to achieve and maintain a competitive advantage. Strategic management involves in developing and implementing an organization's competitive strategy to tackle the uncertainty with an integrated approach. Strategic management is the process of decision making and planning which leads to the development of an effective strategy to help achieve organizational objectives. In this process, the strategists determine objectives and make strategic decisions.
